MR. Dr. Charles Ordon:—My Door Sir.—In anysteer to your request, I m at readily state the gad experienced in my family by the use of your India Chaing que. My wife was troubled with the Fever and Ague nearly twelve menths; and the medicine given her invarmbly be the the chill, but did not cure the disease. I purchased for her several kinds of medicine, but they did not remove it. I had not at this time heard of your latin Chaingage, but it was as a rafter recommended to me by two gustlemen wh. I knew had been suffering in a similar manner for a me time; they were Chipt. Robert Hart, of the steambast "Robert Pulton," and John S. Ide, Esq., sgeat of the Troy and Eric line. I was then going it Detroit, and while there, b ught of your agent a package of one dozen bottles. On my return my wife commenced taking it. Dear Sir,—I have been a dyspeptic sufferer for about ten years, and have resulted to various medicines for relief without success, until I made use of your "Oxygenated Bitters." I have used about two bottles, and find myself restored to perfect health. The fortis in which the discuss the west itself, in my case, were, great acidity of the st-mach, 198 of appetite, extreme flatulence, severe consipation of the bowels, and violent healther. Feeling desirous that a knowledge of your valuable remedy may reach others similarly afflicted. I take great pleasure in recording my testimony to its cupative power 1 and would also

BHUEMATISM.

Dr. Drake's Panacen is used with the greatest success in Rheumatic Complaints, especially such as chronic. It cures by driving out all impurities and foul himmours which have accumulated in the system, which are the course of Rheumatism. Gout, and Swellings of the kims. Other remedies a merimes give temporary relief: this entirely cradicates the disease from the system, even when the hims and bones are dreadfully swollen. CONSUMPTION.

Consumption can be create—Coughs, Ceterth, Bronchitis, Suitting of Blood, Asthma, Difficult or profuse Expect sation, Herie Plash, Night Sweats, Pain in the side &c. have been current, and can be with an interh certainty as any other disease. A specific has long been singht for, but in vain until the diseavery of Dr. Drake's Panacea. It is infill and safe but certain and effections in its operation, and cannot possibly injure the mast delicate constitution. We would expressly recommend those afflicted to give it a trial—and we believe they will not have occasion to regret it. The system is cleaned and attergitemed, the alocers on the language health, and strength agradually regum their cannot health and strength. Read the following: TESTIMONY.

DEAR SIR.—In reply to your queets in respecting the use of Dr. Brake a Painseen. It becomes therefore an object of humanity, as well as of public interest, to bring before them a remedy prepared from much experience, and which may always be relied upon as PAFK, assessment, and maintains so the constraince. Decror Charles Oscools,

Dear Sir,—I have read, with much interest, your little TRARATIRE upon the "causes, treatment and care" of the febrile diseases which have as extentively prevailed in our country during the last few months—an interest increased no doubt, by the fact that I have individually suffered as much front them. Though I feel myself very incompetent to judge sufely upon a subject so entirely professional, yet your theory seems to me well reasoned, and your conclusiona just, and I think withal, that your pamphlet is calculated to produce much practical good.

Spenking of the medicine he mays:—It fully justified your instering expectations, and as a safe, codwinsent, and popular rougely, my own experience, so far, induces me to believe that it will prove a great public hearfit. I am pleased to learn hat you have recently established several agencies for its disposition—though I regret that, with a-viow to a mire general dissemination of it, you should have found it necessary to remove from your present residence among us.

To use the language of another, "Dr. Drake's Panacea in always solutary in its effects—never injurious. It is not as Opiate—it is not and Expectorant. It is not intended to hall the invalid into a fatal security. It is a great remedy—a grand healing and curstive compound, the great and only remedy, which modisol science and skill has yet produced for the treatment of this hithert; uncompared malady. And no person afflicted with this dread disease, will be just to himself and his friends, if he go down to the grave without testing its virtues. A single battle, in mst cases, will produce a favorable change in the condition of any patient, however low."

Ladies of pale complexi in and consumptive habits, and such as are debliated by these obstructions which females are liable to, are restored by the use of a bottle or two, to bloom viger. It is by far the best remedy ever discovered for weakly children, and such as have bad humors; being pleasant, they take it. It immediately restores the appetite, arrength and color.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and lassitude before taking it, at once become robust and fall of energy under its influence. It immediate configurates the nervolcamess of the female frame.

. CAUTION—Be careful and see that you get the genuine Dr. DRARE'S PANACEA—It has the signature of Gro. F. Bronss on the wrapper—and also the name "Da. DRARE'S PANACEA. Butta." In way in the glass.
